

Arch understands protecting local landmarks is important for our community. That's why \$265,000 was provided to upgrade Hamilton Town Hall.

“Protecting local jobs and businesses in the global financial crisis has been a major achievement in the last two years.

Thousands of local students are benefiting from improved school and university facilities. More will in the years ahead.

Labor's support for renewable energy is creating green jobs and cleaner energy for local families and businesses.

Things are moving in the right direction.

Working for a fairer, secure future has been at the heart of my efforts for many years.

With your support, I will continue to work for a better Brisbane.”
